

Little Miss Muffet Book  
 Little Mother Goose Series  
 From the McLoughlin Brothers,  
 Publishing Co., 1905  
 1:12 Scale, Prod. No. blis015

**Required Tools and Assembly Instructions**

- X-acto knife with a fresh blade, small detailing scissors
- A thin metal straight-edge ruler and/or bone folder. Make fold lines by pressing against edge of the ruler.
- Good cutting mat
- Fast-grab, quick-dry white craft glue that dries clear, and a glue stick
- Small piece of aluminum foil to use as a glue pot
- Slender artist's paint brush to apply glue
- Small office binder clips

1. Cut out pieces with knife tool and metal ruler guide.

2. Accordion-fold as shown in this photograph.

3. Use a glue stick to spread a coat of glue to back of pages. Do not coat the end board pages at either end of strip.

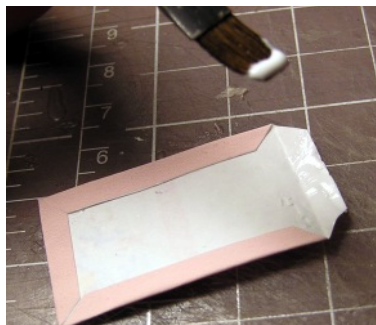

4. Press the pages back-to-back. Make sure that the edges line up and are as straight as possible.

5. Clip the pages together. Paint a thick layer of glue to the spine area. Allow to dry thoroughly.

6. Carefully fold at the fold lines the book cover's four edges. The diagonal edges should line up perfectly.

7. Paint glue to the blank sides of the book cover's edging panels. Fold over and press in place. Make sure that the diagonal seams match up well.

8. Create the spine's creases using the metal ruler as a guide. This ensures a professional looking book cover.

9. Remove the clips from the bundle of pages. Position the bundle inside the book cover so that you will know how to position it once the glue is on the blank side. Paint glue across the spine area (once again) and the end boards.

10. Position the spine and end boards and press in place.

11. To complete the project take the dust jacket and line up the spine artwork over the book's spine. While holding it firmly, fold the jacket's front flap. Finally, fold the jacket's back flap.
