

bookfd7: Good Food and Drink

1:6 Scale for fashion doll & play scale

Required tools and supplies:

- X-acto knife and fresh blade and detailing scissors
- A thin metal straight-edge ruler. Make fold lines by pressing against edge of the ruler.
- Tweezers
- Good cutting mat (cardboard will ruin your blades and project)
- Fast-grab, quick-dry white craft glue that dries clear
- Small piece of aluminum foil to use as a glue pot
- Slender artist's paint brush to apply glue
- Acid-free glue stick
- Optional: 3/4" paper punch. It really helps to make the finished project look professional!

1. Cut out cheese box disks. If you have one, use a 3/4" paper punch with the catch cover removed.

2. Use a pen or pencil to roll the cheese box side. Glue end at the line shown here. You can use the glue stick or craft glue with paint brush. The brush is much easier to control.

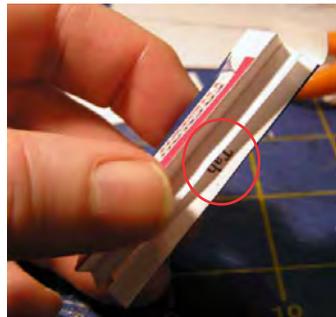

3. Paint glue to the top edge of the coil and then place the top disk in place. When dry, repeat for the bottom disk.

4. Baguette bag: Fold as shown in photo.

5. Paint glue to the top surface of the long tab labeled "tab".

6. Press the "tab" surface to the underside of the bag's other side. Press with the tweezers. Make sure the inside remains unglued. I used a nail file to loosen up wayward glue.

7. Use glue stick or painted glue to inside of bag tab.

8. Fold tab over bag bottom opening and press.

Note: Wine bottles for labels can be found on-line. Look for 1:12 scale or 1" dollhouse scale.

Food Cans:

1. Roll can body around a barrel such as a paint brush handle.
2. Glue end and remove from cylinder. If you have a light gray felt tip pen, you will want to cover the raw white paper edge at the top and base of the can cylinder.
3. Glue ends to cans.

Boxed Products:

1. Cut boxes then use a thin metal edged ruler to fold against and create perfect creases.
2. Use the paint brush and fast grab, quick dry craft glue to paint glue along the box's side tab.
3. Close up the ends and glue shut.

Pizza Take Out:

Instructions for the menu and box can be found on the project page.

3. Blend connection and make realistic imperfections such as lumps and bumps. Allow to dry. Then trim around the paper if shrinkage exposes the "pizza" under the "crust."

4. Use a semi-dry paint brush and brush/blend Folk Art #419 Teddy Bear Tan on crust. Highlight with darker Folk Art #476 Asphaltum.

1. Roll a log of white modeling compound. I used Crayola Model Magic.

5. Paint glue to under side of crust and adhere to paper pizza.

2. Place roll around printed pizza

Annual artist labels from the Vineyard Chateau Mouton, Rothschild's annual labels featuring artists and celebrities. I put a copy of the labels here in case you need to refer again to the names of the artists. Wine bottles for 1:6 scale can be found on eBay.com and etsy.com.
