### Required tools and supplies:

- X-acto knife and fresh blade
- A thin metal straightedge ruler. Make fold lines by pressing against edge of the ruler.
- Small detailing scissors
- Good cutting mat. No cardboard, for it will ruin your project.
- Fast-grab, quick-dry white craft glue that dries clear
- Small piece of aluminum foil to use as a glue pot
- Slender flat artist's paintbrush to apply glue

### Food Cans:

1. Roll can body around a cylinder such as a paint brush handle. Glue edge and remove from cylinder.
2. Glue top and bottom to cans. Before glueing you might want to use a color gray pen to cover the raw white edge of the paper. This will give your pieces a nice finished look.
