

## bookorna2 ~ The Cabbage Rose Scenic Ornament Tutorial

### Required tools and supplies:

- 80mm acrylic, two-piece craft globe found on-line or at craft store.
- Find all 3-d items such as shoes, wine bottles, wine glasses etc. on-line, especially on eBay.
- X-acto knife and fresh blade
- A thin metal straightedge ruler. Make fold lines by pressing against edge of the ruler.
- Scissors and tweezers
- Good cutting mat. Cardboard will ruin your blade and your project.
- Fast-grab, quick-dry white craft glue that dries clear
- An acid-free glue stick. Use where indicated
- Small piece of aluminum foil to use as a glue pot
- Slender, flat artist's paintbrush to apply glue
- Optional: Ribbon and tissue paper.

Products in tutorial may look different from yours, but are constructed identically to yours.

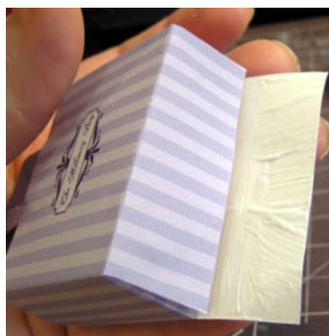

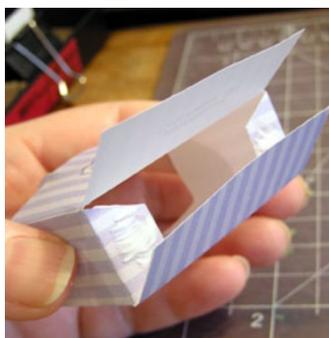

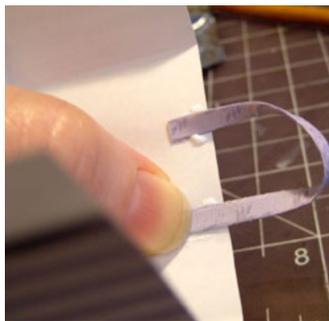

### Sachet Packets

1. Assemble as shown
2. Bundle them into the band and glue band.

### Shopping Bag

1. Cut out all pieces. Fold handles lengthwise along fold lines--triple thick.

2. Glue the entire length of each handle so that the end result is two long, fully lined handles.

**Not shown:** After the handles dry, roll handles around shafted tool such as a pen or pencil. This will help you get a natural curve to your handle.

3. Take first handle and glue end to blank inner surface of the bag. See the tic marks on the printed side for handle positioning. Allow to dry.

4. Glue the other end of handle when first position has dried. Repeat these steps for other side.

5. Fold bag piece against straight edge to get nice creases. Slather a layer of glue to the long side tab. Use tweezers to press bond between tab and side of bag.

6. Place glue to two small tabs on bottom of bag. Press long non-logo panel to them.

7. Place glue to non-logo side and press logo side to it.

### Tissue Bag Stuffer

1. Tissue panel should be approximately 12-18 times the width of the bag and 2.5 times the bag height.

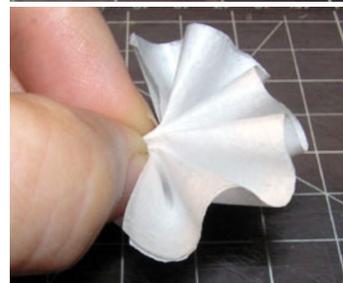

2. Take tissue and fold lengthwise. make one side slightly wider than the other, unlike the photo.

3. Fan-fold length of doubled tissue.

4. Staple base of fan-fold length.

5. Separate folded halves of tissue to create fluff and volume.

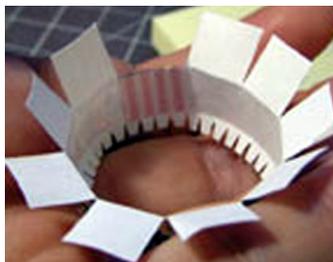

6. Place tissue in bag part way.

### Lined Round Hat Boxes

1. Cut out pieces.

2. Roll side pieces around a pen like item. This gives the hat box a nice curve to it.

3. Cut along lining panel's ribs.

4. Fold tabs and lining panels along straight edge ruler. I have the ruler secured with clamps.

5. Glue side tab on box to make a cylinder. Do the same for the lid. Paint glue with a brush. Use the quick-grab, fast-dry craft glue.

6. Fold down and glue lining panels to interior of box. A glue stick may work more easily for you.

7. Repeat step for lid.

8. Glue inside round disks into box and lid. This will keep the shape of the hat box perfectly round. Make certain first that the disks fit and do not need trimming.

9. Glue bottom panel in place with brush.

10. Glue top panel in place with brush.

### Toiletries

1. Follow the photos below for assembling bottle and puff.
2. Use bonding glue for fittings and baubles.
3. Cut pins with wire cutters if necessary. Be careful not to let cut end fly.

### Powder Box and Puff

1. Glue bead to puff.
2. Fold the box's 8 panels and the lid's 8 panels.
3. Use a straightedge to fold the tab line on both the box and lid.
4. Glue side tabs found on both lid and box.
5. Glue lid's top panel onto tabs and glue bottom panel onto tabs.
6. Glue top and bottom lining panels inside powder box's lid and box.

### Perfume Box

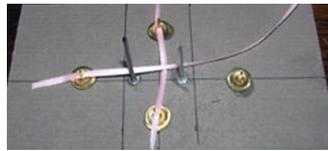

1. Cut the horizontal lines on the front of the box.
2. Create box and push sliced panel back.

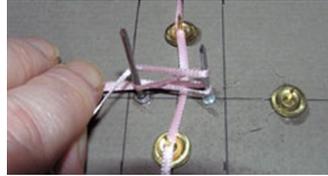

### Bow Maker

This works for both the hat boxes and stationery caddy.

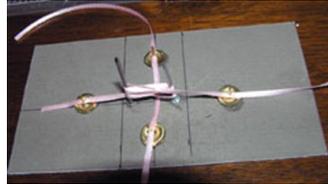

1. Glue the tacks and nails as shown with heavy duty glue. The nails are about 3/4" apart. The nails do not need to be the same length, as you can see from this sample.
2. Center the first piece of 1/16" ribbon and poke onto tacks as shown. This piece will tie around the middle of the bow to hold it secure. You can make this piece any length you desire.

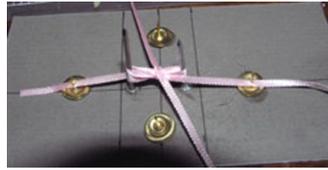

3. Next take the end of another ribbon and poke onto the left tack as shown.

4. Take the ribbon and create a figure "8" pattern on the two nails. Three loops per side is the size this tutorial uses.

5. When you are done making figure "8s", secure the tail end of the ribbon by poking it on the right side's tack.

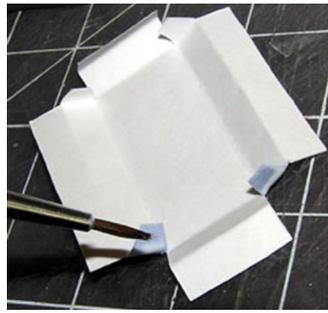

6. Next, slip the first ribbon from it's tacks, and tie a tight knot at the center point of the bow. The bow is now complete and you can remove it from the other two tacks. Slide the bow from the nail shafts. Don't cut the tails until you know for certain how much you need to secure the bow.

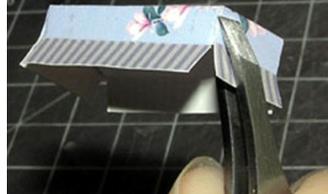

### Shoe Box

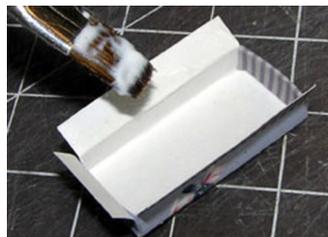

1. Cut and fold pieces.

2. Glue corner tabs

3. Secure Tabs with tweezers.

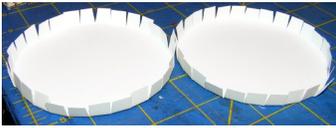

4. Paint glue to interfacing panels and fold inward. Press tightly with tweezers.

5. Use craft glue to paint shoes.

### Ornament Platform:

1. Cut tabs and long strips.
2. Fold tabs carefully on both disks. You want to keep the tabs folded so the line is even around the circle. Disks should sit flat on table.
3. Paint glue to a few tabs at a time. Press the tabs against the second disk's tabs.
4. Keep the disks flat on the table. Otherwise, you will have a wobbly platform.
5. Take the finishing strips and glue them around the platform. Again, keep the platform flat on the table.
6. Continue the second strip on the 100mm platform.
7. Finished platform.
