**Required tools and supplies:**

- X-acto knife and fresh blade
- A thin metal straightedge ruler. Make fold lines by pressing against edge of the ruler.
- Small detailing scissors
- Good cutting mat. No cardboard, for it will ruin your project.
- Fast-grab, quick-dry white craft glue that dries clear
- Small piece of aluminum foil to use as a glue pot
- Slender flat artist's paintbrush to apply glue

Bill envelopes and bills do not require instruction.

1. The phone book starts with making a box of the pages. This gives the illusion of a book full of pages.
  2. Take the phone book cover and glue at the spine area of the box. Leave the front and back covers loose.
1. The U.S.P.S. Priority box is easy to put together. Glue the two pieces together by one of the tabs. Your particular scale may be only one piece.
  2. Then glue the other tab to create the square with four sides.
  3. Cut the flaps apart and glue the base and top closed.
1. The smaller Priority box needs cutting at dotted lines to make tabs.
  2. Fold at logical creases and glue tabs to inside of box.
1. Cut out the flyers' covers and faux pages.
  2. Glue pages together and into the covers. This gives the illusion of full sales flyers.
1. The newspaper is a little different in assembly. Cut out the faux pages.

2. Notice the long tab along the left edge of the newspaper front page. Keep that intact when you cut out the front page.
3. Fold that long tab against the back side of the front page.
4. Next place the faux pages into that fold.
5. Fold the front page in half across the middle and glue all the pages in place. This gives the illusion of a full front page section.

**Handi-Wipes**

Fold in half at base.

Place a line of glue to the inside edge of each side. Press to adhere. Allow to dry.

Cut down a real Handi-wipe and have several in the package. Have one poking out of the opening.

**Pledge Wipes**

Make a cylinder and glue tab to blank side of package. Center and press flat.

Place a line of glue to the inner edge of the package bottom, press to adhere.

When dry, Place folded tissue to add bulk to the package. Glue the top closed.

**ZapZyt**

Fold at parallel lines.

Then glue this large panel to the blank surface of the other large panel.

Refer to the photo for clarity.
