

# Perfume Bottles and Powder Puffs

## Required:

- Straight pins
- Pearls and/or pearl headed straight pins
- Clear beads
- Jewelry spacers and fittings
- Bonding glue for plastic, glass and metal
- Wire cutters
- 1/4" pom poms for powder puffs

## Toiletries

Pins help to hold your beads and fittings together. Use wire cutters to make pins the correct length. Be careful not to let cut ends fly. Protect your eyes and others who may be in the same room as you. Those ends can fly far!

Use a bonding glue for fittings and baubles. Purchase one that will work on bonding glass, plastic and metal.

All the photos here give you examples of how to build perfume bottles.

The butterfly top is actually made with a butterfly paper punch using a Shrinky Dink plastic sheet and 'cooked' to shrink it to size.

As you see in the photos a 1/4" pom-pom with bead glued as a handle works very well for 1-inch dollhouse scale, a.k.a. 1:12 scale.
